

**COMMUNITY FACILITIES CHALLENGE
SITE APPLICATION**

Northern California Community Loan Fund, in partnership with California State University, Fresno is launching a Community Facility Competition in the San Joaquin Valley. The goal of this project is to partner interdisciplinary student teams from Fresno State with Community Benefit Organizations (CBO) or Government entities that serve the needs of low-income communities.

The student teams will conduct a project feasibility analysis for the purpose of a community facility project (i.e. community center, senior center or day care). CBOs and/or Government entities interested in constructing a new building and/or renovating an existing building are eligible for this Competition. The analysis may include engineering and architectural design and review, creation of construction schedule and budget and financial feasibility analysis.

Applications are due by **Friday, January 13, 2012**. Please return your completed application to:
Alice Rocha, arocha@ncclf.org or 4949 Kings Canyon Rd. Suite 108, Fresno, CA 93727
